PROFILE

Automation & Robotics Engineering undergraduate with hands-on software, data, AI, and robotics experience. Sole full-stack developer of a live production e-commerce platform and team leader of a national-finalist robotics team.

SKILLS

- Python • SQL • JavaScript • C
- React.js • Next.js • Node.js
- Supabase • PostgreSQL • Git/GitHub
- HTML/CSS • Expo (React Native)
- Arduino IDE • Circuit Prototyping
- Mechanical / Electronics Integration
- BOM Development • Power-Budget Design
- Data Analysis • Applied AI

CERTIFICATIONS

- Python Programmer — Kaggle × Google (2025)
- Kaggle 5-Day Gen AI Agent Course — Google (2025)
- Swayam Plus — IIT Madras (2025)
- Product Management Foundations (2025)

LANGUAGES

English (professional) • Hindi (native)

PROJECTS & EXPERIENCE

E-Commerce Platform — Full-Stack Developer (Sole Developer)
2025 – Present
Balajee Studio Pvt. Ltd. (Jaipur) • Client Project

- Designed and built a live production e-commerce website end-to-end using React, Node.js, and Supabase (PostgreSQL).
- Implemented UPI QR checkout, Cloudinary image pipeline, Supabase Row-Level Security, and Zustand state persistence.
- Authored technical requirements and system architecture; deployed and maintained on Vercel.

Pipe-Climbing Robot — Team Leader 2026
Escalade 14.0, Techniche IIT Guwahati • National Robotics Competition

- Led a team to design and fabricate a spring-loaded pipe-climbing robot; qualified for the national final round at IIT Guwahati.
- Directed mechanical design, component sourcing, build timeline, team roles, and competition strategy.

RC Rover with 6-DOF Robotic Arm 2025 – 2026
AXIS'26 Robotics Competition, NIT Nagpur

- Designed and fabricated a competition-grade RC rover using Arduino Mega/Uno, NRF24L01, BTS7960 motor drivers, and MG996R servos.
- Engineered an under-2A power budget across dual motors and 6 servos; resolved current-draw conflicts through activation sequencing.
- Sourced a ₹14,000 component bill, created BOM documentation, and managed the end-to-end build timeline.

EDUCATION

B.Tech in Automation & Robotics Engineering 2025 – 2029
Army Institute of Technology, Pune • Affiliated to Savitribai Phule Pune University

- Relevant coursework: Engineering Mathematics, Programming in C, Basic Electronics, Engineering Drawing, Automation Fundamentals.
- Joint Secretary, Centre for Excellence in AI & Robotics — first-year representative.

EXPERIENCE & ACHIEVEMENTS

PepsiCo Supply Chain Stars Program Oct 2025
Industry Virtual Learning Program

- Completed modules on supply chain strategy, demand forecasting, and logistics optimization; developed data-backed recommendations for a distribution network efficiency case.

Internshala Student Partner (ISP) Aug 2025
Campus Ambassador Program • Remote

- Promoted internship and skilling resources across AIT Pune; organized peer outreach and coordinated with 15+ students.

LEADERSHIP & EXTRACURRICULARS

Joint Secretary — Centre for Excellence in AI & Robotics 2025 – Present
AIT Pune

- Represent the first-year cohort in a technical club focused on robotics, electronics, and automation competitions.
- Coordinated competition strategy and logistics for AXIS'26 at NIT Nagpur, including team travel and documentation.

NSS — Volunteer 2025 – Present
National Service Scheme, AIT Pune

- Participate in campus and community service activities.

Cursor Hackathon Kashmir — Participant Apr 2026
48-hour Hackathon, NIT Srinagar

- Selected via competitive application process; assembled a cross-functional team for a 48-hour AI product challenge.

ADDITIONAL INFORMATION

- Comfortable with travel and relocation for internships or training programs.
- Strong interest in applying software engineering and data skills to real-world, large-scale technical and scientific projects, including life-sciences and healthcare technology.
