RAVI REPSWAL

B.Tech Automation & Robotics Engineering | Army Institute of Technology, Pune
+91-94686-74153 | ravirepswal108@gmail.com | linkedin.com/in/ravirepswal | github.com/ravirepswal108

PROFILE

Second-year Automation & Robotics Engineering undergraduate with hands-on software and data experience: sole full-stack developer of a live production e-commerce platform handling real transaction and customer data, and team leader of a national-finalist robotics team. Proficient in Python, SQL, and JavaScript with practical exposure to data-driven decision-making (PepsiCo Supply Chain Stars program) and applied AI (Kaggle Gen AI Agent course). Motivated to bring an analytical, detail-oriented, cross-functional engineering approach to a data/technology internship in a life-sciences environment.

EDUCATION

Army Institute of Technology, Pune (Affiliated to Savitribai Phule Pune University) *2025 – 2029*
B.Tech in Automation & Robotics Engineering | Second Year

- Relevant coursework: Engineering Mathematics, Programming in C, Basic Electronics, Engineering Drawing, Automation Fundamentals
- Joint Secretary, Centre for Excellence in AI & Robotics

PROJECTS

E-Commerce Platform — Client Project, Balajee Studio Pvt. Ltd. (Jaipur) *2025 – Present*
Full-Stack Developer (Sole Developer)

- Designed and built a fully functional, live production e-commerce website end-to-end for a real clothing-industry client, using React, Node.js, and Supabase (PostgreSQL)
- Implemented UPI QR checkout, Cloudinary-based image pipeline, Supabase Row-Level Security, and Zustand state management with persistence — working directly with structured customer and order data at scale
- Authored the complete technical requirements document and system architecture; deployed and maintained on Vercel

Pipe-Climbing Robot — Escalade 14.0, Techniche IIT Guwahati (National Robotics Competition) *2026*
Team Leader

- Led a team to design and fabricate a spring-loaded pipe-climbing robot; team qualified for the national final round at IIT Guwahati
- Directed mechanical design, component sourcing, and build timeline; coordinated team roles and competition strategy

RC Rover with 6-DOF Robotic Arm — AXIS'26 Robotics Competition, NIT Nagpur *2025 – 2026*

- Designed and fabricated a competition-grade RC rover integrating Arduino Mega/Uno microcontrollers, NRF24L01 wireless modules, BTS7960 motor drivers, and MG996R servos
- Engineered a strict power budget (under 2A competition limit) across a dual-motor + 6-servo arm system; resolved current-draw conflicts through servo activation sequencing
- Sourced a ₹14,000 component bill, created BOM documentation, and managed the end-to-end build timeline

EXPERIENCE & ACHIEVEMENTS

PepsiCo Supply Chain Stars Program — Industry Virtual Learning Program *October 2025*

- Completed structured modules on supply chain strategy, demand forecasting, and logistics optimization; developed data-backed recommendations for a distribution network efficiency case scenario

Internshala Student Partner (ISP) — Campus Ambassador Program | Remote *August 2025*

- Promoted the Internshala platform across AIT Pune campus, driving peer awareness of internship and skilling resources
- Organized peer outreach and coordinated with 15+ students to participate in online courses and competitions

SKILLS & CERTIFICATIONS

Data & Programming: Python, SQL, JavaScript, HTML/CSS, C
Frameworks & Tools: React.js, Next.js, Node.js, Supabase, Git/GitHub, Arduino IDE, Expo (React Native)
Engineering: Circuit prototyping, mechanical/electronics integration, BOM development, power-budget design
Languages: English (professional), Hindi (native)

Certifications: Python Programmer — Kaggle × Google (2025); Kaggle 5-Day Gen AI Agent Course — Google (2025); Swayam Plus — IIT Madras (2025); Product Management Foundations (2025)

LEADERSHIP & EXTRACURRICULARS

Joint Secretary — Centre for Excellence in AI & Robotics, AIT Pune *2025 – Present*

- Represent the first-year cohort in a technical club focused on robotics, electronics, and automation competitions
- Coordinated competition strategy and logistics for AXIS'26 at NIT Nagpur, including team travel and documentation

NSS (National Service Scheme) — Volunteer *2025 – Present*

- Participate in campus and community service activities as part of AIT Pune's NSS unit

Cursor Hackathon Kashmir 2026 — Participant — 48-hour Hackathon, NIT Srinagar *April 2026*

- Selected via competitive application process; assembled a cross-functional team for a 48-hour AI product challenge

ADDITIONAL INFORMATION

- Comfortable with travel and relocation for internships or training programs
- Strong interest in applying software engineering and data skills to real-world, large-scale technical and scientific projects, including in the life-sciences and healthcare-technology sector
